The Transfer Box Conditional Warranty

2-years warranty for replaced parts, and labour for transfer boxes!
1-year warranty for replaced parts and labour for all other products + services!

Warning!

All reconditioned or modified transfer boxes, supplied by "Dorfbrunnen", are lead sealed.
If the lead seal is damaged or removed the warranty will be void..

The warrenty will be void:

01. If the transfer box is operated **without the specified synthetic Oil.**
Opel/Vauxhall/Holden - Part No. 19 40 703 / 90 443 530. – (600ml)
02. If any other then the original Opel/Vauxhall/Holden oil has been used..
03. If the tyres on the front and the rear axles are not of the same brand, type, size + rating.
04. If the difference between the tread depth of any two tyres is more than 2mm, and/or the difference in circumference exceeds 15 mm.
05. If the rims on the front and the rear axle are not of the same brand, type and dimension, or if they have any other offset.
06. If the car has been lowered and operated with the camber angles outside the camber values stated in the Opel/Vauxhall/ Holden handbook.
(Vectra/Cavalier: $-2^{\circ} +/-40'$ and Calibra $-2^{\circ}17' +/-40'$)
07. If the pressure accumulator bulb is older than 6 years **or** has exceeded 54'000 mils / 90'000 km in use or is marked with a white ring.
08. If the spare wheel has not been used in accordance with handbook. I.e. It has been driven at more than 50MPH / 80 km/h **and/or** without first removing fuse No. 19.
09. If the power output of the engine has been increased without upgrading the viscous coupling.
10. If the vehicle was used for any Racing.
11. If the hydraulic pressure is outside the working limits of 53 bar +/- 5 bar, as measured at the accumulator control block.
12. If the 'Dorfbrunnen' lead seal is damaged or removed.
13. If a car has been lowered without camber and caster correction at the rear axle. (The installation of eccentric bushes (Camber/Caster kit) is mandatory!)
